

Anirudh A

Aspiring Software & IoT Engineer

 anirudhhfhs2017@gmail.com  +91 9207378434  Bangalore, India  LinkedIn  GitHub

PROFILE

Final-year B.E. Computer Science Engineering (IoT & CSBT) student with interest in software development, IoT systems, and emerging technologies. Hands-on experience through internships and academic projects involving cybersecurity fundamentals, SAP technologies, AI-based systems, and web development concepts. Passionate about learning modern technologies, solving real-world problems, and continuously improving technical and analytical skills.

WORK EXPERIENCE

Generative AI Assisted Android App Development Intern , MindMartix 	02/2026 – Present Bangalore, India
- Exploring AI-assisted Android application development workflows. - Learning modern AI-supported development practices.	
Edge Computing, SAP ABAP, SAP Analytic Cloud Intern , Edunet Foundation 	10/2025 – 02/2026 Bangalore, India
- Working with SAP ABAP and Edge Computing concepts. - Exploring analytics and backend-oriented development workflows.	
Cybersecurity Intern , ELEVATE LABS 	10/2025 – 12/2025 Bangalore, India
- Assisted in vulnerability assessment and phishing analysis. - Worked on basic security monitoring and VAPT-related tasks.	

SKILLS

React.js Fundamentals | Node.js & Express.js | REST APIs | Git & GitHub | ML & DL Fundamentals |
SAP ABAP Basics | Networking & Network Security | IoT & Cloud Fundamentals |
Cybersecurity Fundamentals | Java | C Programming

EDUCATION

B.E in COMPUTER SCIENCE ENGINEERING (IoT AND CSBT) , S.E.A COLLEGE OF ENGINEERING AND TECHNOLOGY	10/2022 – Present Bangalore
--	--------------------------------

PERSONAL PROJECTS

Multimodal AI System for Emergency & Distress Detection , Role: Team Lead	11/2025 – 01/2026
- Developed an AI-powered emergency detection system using audio stress analysis and speech recognition. - Integrated FastAPI, TensorFlow/Keras, and Whisper ASR for intelligent distress detection and alert workflows.	
Decentralized Cloud Storage using Blockchain Technology , Role: Team Lead	04/2025 – 12/2025
- Built a decentralized cloud storage system using Ethereum, Solidity, IPFS, React, and MetaMask - Enabled secure file upload, preview, download, and management. Ensured data integrity, immutability, and secure access control through blockchain.	
Voice Surveillance using Arduino Nicla Voice Sensor , Role: Developer	08/2024 – 01/2025
- Developed a voice-activated surveillance system to detect abnormal sound levels in real time - Implemented automated alerts and IoT-based remote monitoring focusing on security.	

CERTIFICATES

SAP Code Unnati Program – Emerging Technologies Certification – 2026
Oracle Cloud Infrastructure Certified Foundations Associate – 2025
CAPIE - Certified API Hacking Expert Course, Udemy – 2026 Introduction to Cybersecurity, Cisco – 2025
Cybersecurity Analyst Job Simulation, Forage – 2025
Learning the Basics of ABAP Programming on SAP BTP – 2025 Learning Basic ABAP Programming – 2025
